

Dear SLT team,

I am writing this README to inform you that I uploaded my solutions both here on Moodle and on Github as I was not sure whether the upload was successful on Moodle. In particular, I tried to upload my notebooks in the "Jupyter Notebooks" section, but I was not able to upload any file there, so I uploaded both files in the "File Submissions" section.

Thanks in advance for your comprehension!

Best regards,

Federico Arangath
